DELTA Smoke and carbon monoxide alarm

Carbon monoxide is an odourless gas and is therefore highly dangerous to humans. When sleeping, your sense of smell is less effective and people therefore notice smoke or a fire when it is already far too late. Protect yourself now and take the necessary precautions. Siemens offers you the best technology and highest safety levels to protect you and your loved ones.

Heating systems, gas heaters, boilers or wood burners can cause smoke and CO emissions that can lead to serious accidents due to fires or even fatal carbon monoxide poisoning. To prevent these risks, installing smoke and CO alarms is a simple and economical solution.

Siemens offers reliable and long-lasting smoke and CO alarms with a 10-year battery life. The alarms are easy to use and are ideal not only for homes, but also for caravans and camper vans. The optical sensor of the smoke alarm triggers an alarm whenever smoke is detected. The electrochemical sensor of the CO alarm warns of danger whenever an excessively high concentration of carbon monoxide is detected.

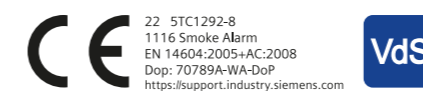

Protect your home and your family with Siemens smoke and CO alarms.

Operating instructions

Carbon monoxide alarm DELTA reflex 5TC1260-4

- Large button for easy testing
- Self-test function
- Mounting plate and screws included
- Low battery warning
- Battery warning mute (9 hours)
- Carbon monoxide alarm with electrochemical sensor
- Ceiling or wall installation
- LED display lights
- Appropriate for domestic premises (caravan holiday homes), caravans and motor caravans - Not appropriate for boats
- Storage and transport conditions: 0 ... +40°C, 25 ... 95% relative humidity, non-condensing
- For minimum protection:
 - In every room with a combustion system.
 - In the room where you spend most of your time.
- 10-year battery life
- Non-replaceable sealed battery
- VDS certified

Operating instructions

Smoke alarm DELTA reflex 5TC1292-8

- Large button for easy testing
- Self-test function
- Mounting plate and screws included
- Low battery warning
- Battery warning mute (10 hours)
- Night mode (no annoying light in the dark)
- Ceiling or wall installation
- Suitable for caravans and motorcaravans
- Smoke alarm with optical sensor
