## DELTA style matt gold

### A matt note

The matt gold colour in the Siemens DELTA series is the perfect choice for anyone who attaches importance to timeless and elegant interior design. It brings a special touch of brightness and warmth to every room and fits seamlessly with every style of furnishing. With the style series, you have the option of adding a personal touch to your living space and giving your home that special feeling.

Whether in homes, offices or hotels, matt gold is available for numerous functions that meet the daily requirements of a modern electrical installation. Dimmer switches, multimedia connections, dual USB chargers, LED display lights and smart solutions ensure that every room fosters a feeling of well-being and relaxation.

Discover the new world of matt gold and experience the special charm it lends your home. Be captivated by its elegance and sophistication, and enjoy the new look of your living space.
